

The Safeguarding of Raw Material Deposits in the Provinces of Lower Austria, Upper Austria and Tyrol

Summary

From December 2015 to May 2016, the Austrian Court of Audit (ACA) performed an audit on the safeguarding of raw material deposits in the provinces of Lower Austria, Upper Austria and Tyrol. The audited period covered the years 2001 to 2015 since it was in 2001 that the National Council decided to have the Austrian Mineral Resources Plan prepared.

The aim of the audit was to assess

- the implementation of the Austrian Mineral Resources Plan, which had been prepared by the Federal Ministry of Science, Research and Economy and had, among others, been coordinated with the audited provinces,
- the spatial planning instruments concerning the related securing of areas at a supraregional level,
- the consideration of the Austrian Mineral Resources Plan in the framework of spatial planning and
- the expenses incurred during the drafting of the Austrian Mineral Resources Plan.
