

Bioenergie Kufstein GmbH

From February to March 2017, the Austrian Court of Audit carried out a sample-based audit of the administration of funds by Bioenergie Kufstein GmbH. The audit aimed in particular at assessing the development of the company's financial situation and the economy of its investments. Furthermore, the audit was to provide an analysis of the implications of the subsidization of green electricity on the strategic orientation of the company and the corresponding steps taken by the management to promote an adaptation to the circumstances.
